

GUARANTEED INCOME FOR LIFE

With an Income Benefit Rider on income-focused fixed index annuities

Help clients secure a stream of income they can't outlive — even if their contract's Accumulation Value (AV) is depleted. EquiTrust Income Benefit Riders (IBRs) offer distinct advantages.

Strong rollup designs

On EquiTrust IBRs, the Benefit Base is equal to all premiums and bonuses, less withdrawals, compounded (not simple) at a defined rate as shown below. Strong rollup rates and payout factors, plus added bonuses, result in competitive guaranteed income payments.

Fixed index annuity	Benefit-Base bonus ¹	Rollup rate and design	Strong guaranteed income	Fee as % of AV
MarketEarly Income Index™	20%	7% in years 1-5 and 4% in years 6-10, or until income withdrawals begin	In early years	1.25%
MarketFuture Income Index™	10%	8% in years 1-10, or until income withdrawals begin	In later years	1.25%

Income payments may begin anytime after the first contract year and age 50.

Spousal continuation

- Income payment amount is recalculated based on the remaining value of the IBR Benefit Base and paid out for the life of the surviving spouse.²
- Recalculated payments continue even if the AV is depleted.²

Competitive fee structure

The IBR annual fee percentage is applied to the contract's AV — not the Benefit Base used by many carriers. This results in fewer dollars being taken from your client's AV, allowing for higher growth potential.

Chronic illness doubler (Enhanced Income Withdrawals)

- No confinement required
- Applies when there's an inability to perform at least two of six activities of daily living, or permanent severe cognitive impairment
- Continues increased payments for up to five years even if the AV zeroes out, while some companies pay out only until the account is depleted
- Approved in all states except New York

Want to learn more about our competitive IBRs? Call Sales Support at 866-598-3694 or visit Agents.EquiTrust.com.

¹ This is the Benefit-Base bonus applied only to the Income Benefit Rider value, not to the contract's Accumulation Value.

² Payments will continue at the same amount if income withdrawals were based on two lives. Payments will be recalculated based on the spouse's age if the original income withdrawals were based on one life. Spouse may include a domestic partner in OR (in some cases does not include spousal continuation). Spousal continuation may not be elected if Single Life Income Withdrawals were elected and the Accumulation Value is zero. Spousal continuation may not be elected if the surviving spouse is younger than age 50 at the time of the owner's death and the owner had been taking Single Life Income Withdrawals.

Withdrawals before age 59½ may result in a 10% IRS penalty tax. Any withdrawals prior to the start of income withdrawals will reduce the Benefit Base proportionately. Guarantees subject to the claims-paying ability of EquiTrust Life Insurance Company. Contract issued on Contract Form Series ICC12-ET-EIA-2000(01-12) or ET-EIA-2000(06-04). Income Benefit Rider issued on Form Series ICC16-ET-IBR-FIXED(07-16) or ET-IBR-FIXED(07-16).
